Starting from Feb. we are going to be running our 4 month programme again, its a special deal at R1200 payed up straight for the 4 months!

When you join us for one of life altering lessons this is how it works:

Its better to meet at the Roxy Club 15 minutes before the lesson as you want to get into your suit and put your stuff in a locker, without cutting into your surfing time.

Then our coaches will take you or the group down to the beach, they will do warm ups and learn safety tips before they go out, and they will be shown (if a beginner) the different ways to stand up, abit about paddling into the wave that kind of thing.

And then its surf surf surf!!!

I hope this answers all of your questions, if you need anything else please dont hesitate to ask.

Thank you

Regards Robyn.
